

Preserving Curly Horse Types- Sulphur Springs Curly Mustang

Sulphur Springs mustangs are found on HMA in Utah, these horses are of Iberian (Spanish) descent. Curlies are rare in this herd but a few have been found. One is beautiful Sulphur's Mezcal.

Sulphur's Mezcal- BLM Sulphur Curly horse. Unknown Curly Coat Gene

Mezcal was bred to Shoshoni Cruce LR, a Wilbur-Cruce straight haired stallion and foaled Curly coated Shoshone's Renegade, the only stallion carrying this unknown Sulphur Springs mustang Curly Coat Gene. Interested Curly owners are doing their best to preserve and save this small line of Sulphur Spring Curlies.

Suggested breeding is smooth coat Sulphur mustangs or other Spanish mustangs.
